

Learn how you can change the form of matter by doing these simple tasks.

Task A

- Step 1: Get two scoops of powdered juice.
- Step 2: Add it into a pitcher of water.
- Step 3: Stir and observe what happens to the powdered juice.

Step 4: Draw and color what happens to the powdered juice.

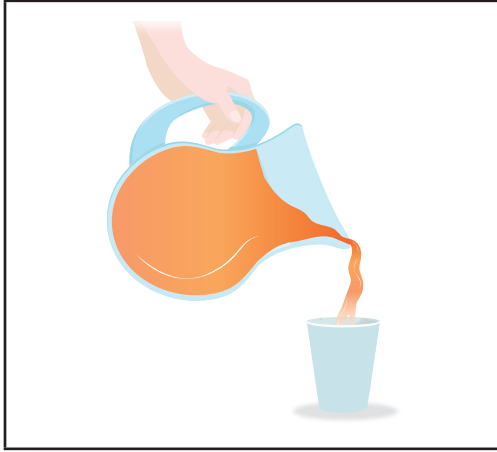

Task B

Step 1: Pour the juice into a paper cup.

Step 2: Put the paper cup with juice in the freezer.

Step 3: After two hours or more, see what has happened to the juice in the paper cup. Draw and color what you see.
